

Educational Workshop Series 2012

Enhancing Learning by Integrating Arts and Academics

This workshop for teachers, tutors and parents will demonstrate how integrating art, movement and music enhances student learning for students with or without language-based learning differences.

Learn why this strategy works, hear examples from veteran teachers, and spend time in breakout sessions exploring concrete ways to integrate the arts into academic subjects.

Participants will explore topics relevant to their interest area, and teachers attending the workshop will develop lesson plans useful right away. All participants will examine creative ways to present academic content.

Workshop Facilitators:

Clay Kaufman, Head of School, The Siena School

Natalia Kormeluk, Studio Department Chair, The Field School

**cost: \$100 includes materials
and lunch**

**where: The Siena School
9727 Georgia Ave., Silver Spring**
